Professional Summary

Software Engineering graduate with hands-on experience in React Native for building high-performance, cross-platform mobile apps. Skilled in JavaScript, TypeScript, Redux, Firebase, REST APIs, and integrating AI/ML features. Proficient in full app lifecycle and version control with Git.

Professional Experience

1. React Native Developer

Feb 2023 - Mar,2025

WISE360 SOLUTIONS (SMC-PRIVATE) LIMITED

- Designed and implemented advanced **features for Android and iOS applications** using **React Native**, ensuring clean, modular, and scalable code aligned with project requirements.
- Collaborated with **cross-functional teams**, including designers and backend developers, to deliver seamless, user-friendly mobile applications meeting both functional and aesthetic goals.
- Developed and maintained **cross-platform applications**, enhancing usability, performance, and user engagement.
- Created **intuitive UI components** to improve navigation and overall **user experience (UX)**.
- Integrated **RESTful APIs and third-party libraries** to extend app functionality and streamline data handling.
- Leveraged **native build tools** such as **Android Studio** and **Xcode** for efficient debugging, testing, and deployment.

2. React Native Developer

Mar 2025 – Present

7 Kings Code Pvt Ltd

- Developed and maintained cross-platform mobile applications for **iOS and Android** using **React Native**, improving user engagement and app performance.
- Designed and implemented **modular, scalable, and maintainable features** in alignment with project requirements and best practices.
- Built and optimized **user interface (UI) components**, ensuring seamless functionality, intuitive navigation, and a positive **user experience (UX)**.
- Integrated **third-party libraries, SDKs, and RESTful APIs** to extend application functionality, enhance data handling, and improve performance.
- Collaborated with **cross-functional teams**, including designers and backend engineers, to deliver visually appealing, responsive, and high-performing applications.
- Utilized **native build tools** such as **Xcode** and **Android Studio** for debugging, performance optimization, and efficient deployment.

Education

COMSATS University Islamabad, Abbottabad Campus

Jul 2021 – Jul 2025

Bachelor of Science in Software Engineering.

Projects

AI-Based Remote Interview Mobile App

Aug 2024 - Jul 2025

- Engineered an intelligent interview system achieving 95% accuracy in facial expression recognition.
- Implemented NLP algorithms resulting in 85% contextually relevant follow-up questions.
- Developed secure authentication system handling 100+ concurrent users with Firebase.
- Optimized app performance achieving 30% faster response time than initial prototype.

React Native

Python

Firebase

OpenCV

NLP Models

PyTorch

Roam-Together - Collaborative Travel App

Jul 2024 – Jul 2025

- Built React Native travel app with real-time location tracking, achieving 40% faster rendering and active users.
- Implemented Socket.io for live location updates, reducing latency by 65% while supporting 100+ concurrent connections.
- Integrated Google Maps API with custom overlays improving location accuracy by 35% for enhanced user navigation.
- Created a secure JWT authentication system with refresh token rotation, ensuring data protection while maintaining usability.

React Native Socket.io Google Maps API MongoDB Node.js

Coffee Shop Website

Jan 2022

- Created responsive e-commerce platform increasing customer engagement by 35%.
- Implemented online ordering system processing 200+ test transactions with 0% error rate.
- Built customer review functionality improving user feedback collection.

HTML CSS JavaScript React.js

Netflix Clone

Feb 2023

- Built a Netflix-like app using React Native.
- Implemented features like user login and video streaming

React Native Firebase Redux

Electronic Voting System

Sep 2022

- Developed secure voting platform with end-to-end encryption and 100% vote verification.
- Built RESTful API with Node.js/Express reducing data fetch times by 40%.
- Implemented MongoDB for efficient data storage handling 10,000+ simultaneous votes in testing.

React.js Node.js Express.js Firebase

Certificates

1. Specialization in Meta React Native

- Coursera
- Feb 18, 2025

Courses

- Introduction to Mobile Development
- Programming with JavaScript
- Version Control
- React Basics
- React Native
- Working with Data Principles of UX/UI
- Design Capstone (React App)

Certificate URL: <https://coursera.org/verify/specialization/DS8NWQGQNBAB>

2. Introduction to Front-End Development

- Coursera
- March 16, 2024

Certificate URL: <https://coursera.org/verify/MLHJ3WLFKJGP>

3. Developing Front-End Apps with React

- Coursera
- Feb 18, 2024

Certificate URL: <https://coursera.org/verify/WTJPNLAKXVDM>

Skills

Technical Skills

React Native Python CSS3
JavaScript/ES6+ Node.js
Next.js Agile methodology
Java React.js HTML CSS
SQL HTML5

Languages

English (Professional Working Proficiency)
Urdu (Native or Bilingual Proficiency)
